HALIMA ELFILALI ECH-CHAFIQ

5th-Year Engineering Student in AI & Industrial Data Technologies

Seeking a 6-month AI / Data Engineering PFE internship starting February 2027.

Phone: +212 776-537382 Email: h.elfilaliechchafiq@gmail.com Morocco

LinkedIn: in/halima-elfilali-ech-chafiq GitHub: HalimaElfilaliEchChafiq

EDUCATION

Engineering Student - Artificial Intelligence and Industrial Data Technologies **2024-2027**
National Graduate School of Arts and Crafts (ENSAM) *Meknes*

Integrated Preparatory Cycle for Engineering Schools (API Cycle) **2022-2024**
National Graduate School of Arts and Crafts (ENSAM) *Meknes*

Baccalaureate in Mathematical Sciences B **2021-2022**
Abdelkrim Raiss High School *Fez*

EXPERIENCE

AI Engineering Intern - Urika Cloud (SELLIGENT platform) *July 2026 - September 2026*
Tools : TypeScript, NestJS, Next.js 15,PostgreSQL 16 + pgvector, Redis, Docker, Kubernetes, multi-provider LLMs
Description : Built an AI sales-agent platform: multi-tenant RAG over company data, LLM orchestration across providers, real-time conversations and job pipelines in a containerized environment.

IT / Data Intern - Sofafer *July 2025 - August 2025*
Tools : SQL, Python
Description : Developed a stock management platform with ABC inventory classification driving provisioning rules.

TECHNICAL SKILLS

- **AI / ML / GenAI :** Scikit-learn, PyTorch, TensorFlow, Keras, XGBoost, Deep Reinforcement Learning, LLMs, RAG (hybrid retrieval, re-ranking), AI Agents (LangGraph), Ollama, Hugging Face, SentenceTransformers, Statsmodels, Prophet, tsfresh, spaCy, NLTK, Whisper
- **Computer Vision :** OpenCV, MediaPipe, YOLO, Vision-Language Models (Qwen2.5-VL), Face Recognition, Dlib, PIL, Tesseract OCR, PaddleOCR
- **Data Analytics :** NumPy, Pandas, Matplotlib, Seaborn, SciPy, Excel, Plotly
- **Databases :** PostgreSQL, MySQL, MongoDB, Cassandra, SQLite, Redis, ChromaDB, Supabase
- **Software Engineering :** Python, TypeScript, Java, C/C++, SQL, R, Julia, JavaScript, PHP, NestJS, Next.js, Angular, VueJs, Flask, Django, FastAPI, Spring Boot, PyQt5, TailwindCSS, Bootstrap
- **Development tools :** Git/GitHub/GitLab, Docker, Kubernetes, VS Code, PyCharm, Colab, Anaconda, Streamlit

ACADEMIC PROJECTS

Multimodal IT Support Agent (final-year expertise project, in progress) *October 2026 - Present*
Tools : Qwen2.5-VL, LangGraph, Hybrid RAG with cross-encoder re-ranking, Whisper, Python
Description : AI helpdesk agent reading error screenshots and messages (text and voice), retrieving fixes, guiding users step by step, remembering tickets, and escalating with tickets when confidence is low. Baseline: OCR + LLM.

Grounded Hybrid RAG Chatbot with Hierarchical Access *January 2026*
Tools : Next.js 15, FastAPI, Supabase, Ollama, SentenceTransformers, PaddleOCR, Faster-Whisper, PyMuPDF
Description : Multimodal AI assistant for secure enterprise document retrieval: grounded hybrid RAG with strict hierarchical access control (ltree) to prevent hallucinations and restrict data by user role. Processes text, PDF, audio.

TriMem - Agentic Memory Framework *May 2026*
Tools : Python, LLMs, Vector Databases
Description : Memory framework for AI agents combining episodic, semantic and procedural memory, so agents retain and reuse what they learn across conversations.

Electricity Demand Forecasting *May 2025*
Tools : Python, Scikit-learn, TensorFlow, REE API, Streamlit
Description : Time series forecasting of electricity demand in Spain using weather and holiday data. Combined classic ML and deep learning (LSTM, TCN) and delivered an interactive dashboard.

SOFT SKILLS

Curious and analytical thinker · Methodical problem solver · Focused and organized under deadlines · Quick learner · Clear communicator · Calm and resourceful under pressure

LANGUAGES

Arabic : Native English : Professional French : Professional
